THE ESC PROJECT

With this project, **Tera Maison de l'Europe de la Charente** and the **Campus CCI Charente Formation** promote intercultural dialogue, informal skills and international solidarity.

The college and the association are located in **Angoulême** (you can read more about this beautiful town at the page 7), where stereotypes and racism against minority groups can be a problem. In these times, to prevent any kind of radicalization and to promote **non-discrimination** through education must be a priority. Our aim is to help **young people** to become active, responsible, open-minded members of a diverse society of tomorrow.

How to do it? Our volunteers will organize activities with the goal of **promoting European mobility opportunities**. For both local youngsters and our **four European volunteers** it will be a chance to build linguistics, cultural and social competences.

CCI CHARENTE FORMATION

HOSTING ORGANIZATION

CCI Charente Formation is a **vocational training** centre which welcomes more than 4000 students in the area of Angoulême. We provide various quality **training services** for a wide public: young people, employees, job seekers. Our centre includes several schools and institutes in various training fields, both at the main campus and also in Angoulême city centre. The main campus also includes a **documentation centre and Resources** (CDR), a **cafeteria**, dormitory rooms, a boarding school and a sport centre.

We have been hosting **European volunteers since 2015**. These positive experiences have encouraged us to continue with the ESC program. For many years now we have been welcoming **foreign students** for language classes and internships, who didn't speak French language. Therefore, we have always known how to integrate them into our daily school life.
